Dear Friends:

Thank you so much for your generous gift of \$5,300.00 to support the Amyloid Treatment and Research Program at Boston University School of Medicine. Your visit is one of the highlights of our year. You are always smiling and happy and bring us good cheer along with your generous check. Thanks so much for your continued support.

Your gift will support our programs which are dedicated to patient care and treatment. Our clinical program can now offer patients options for major treatment, because of recently approved clinical trials and new novel therapies. Our researchers in the Gerry Amyloid Research Laboratory work diligently to identify the basic causes of amyloid disease and why amyloid fibril proteins deposit in tissues. Your gift will advance our research toward finding a cure.

We appreciate your confidence in our work and your thoughtful generosity. Again, many thanks to the Wings for being part of this important work.

Sincerely,

David C. Seldin, M.D., Ph.D.
Professor of Medicine

Thanks Jaime -

But to all your members -

David

Dear Friends:

On behalf of Boston University School of Medicine and all the Amyloid patients your generosity will help, thank you very much for your recent gift of \$5,300.00 made to the Current Amyloid Research Fund.

We are pleased that the generosity and support of the patients and friends of our Amyloid Program have enabled Dr. David Seldin and his team to make steady progress in the quest to find a cure for amyloidosis.

Thank you very much for your contribution and your support of this all-important research here at the School of Medicine.

Sincerely,

A handwritten signature in blue ink, appearing to read "Karen Antman".

Karen Antman, M.D.
